Allowable Subject Matter

1. Claims 39-43 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The prior arts of record do not anticipate or render obvious to one skilled in the art a routing switch comprising various elements as claimed, more specifically wherein the voltage application circuitry is adapted to apply voltages to the array of electrodes for varying a deflection angle of light and a first array of optical fibers forming light sources directed to be off-normally incident on the first integrated spatial light modulator and a second array of optical fibers forming light receivers directed to be off-normally incident on the second integrated spatial light modulator for receiving light from the second integrated spatial light modulator and drive circuitry for forming a respective plurality of switching holograms on each integrated spatial light modulator, each of the switching hologram on the first integrated spatial light modulator in use being operative to deflect light incident on the first integrated spatial light modulator to the switching holograms on the second integrated spatial light modulator, and each of the switching holograms on the second integrated spatial light modulator in use being operative to deflect the light beams to a respective optical receiver.
4. The closest reference, EP A 0 878 729 an optical device comprising an integrated multiphase spatial light modulator for spatial phase modulation of unpolarized light of predetermined wavelength, the integrated spatial light modulator having a substantially planar liquid crystal layer, a layer reflective of the light of the wavelength and a quarter-wave plate layer providing an optical retardance of $(2n + 1)\lambda/4$. However,

the above reference alone or in combination fail to teach or suggest the claimed routing switch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
